YEARS of
Employability delivered

Blue Yonder – Upskilling

(previously: JDA Software)

Blue Yonder: Bridging the Skill Gap in Campus Hires through a Faster, Outcome-Driven Skilling Program

Requirement & Challenge

ROI leakage due to long gestation of Fresh Talent post onboarding

Talent were not project ready after the long training period

Huge gap found in theoretical knowledge & real world application of skills thru traditional training approach

Solution by BridgeLabz

Talent upskilled through a 100% experiential maker program to exactly fit into the requirements of the project team

Month #1 productive talent - tailor made to 2 different custom tech stack needs

Outcome and Response

CTO & Project leadership were happy with the outcome

Talent were deployment ready immediately on completion of program

Let's Go!
